Sworls CIRCULATION

LARGEST IN THE CITY.

Purely Business!

The columns of a newspaper represent a small but no publisher can afford to give advertising "notions" free any more than a merchant can toss over his counter free gifts of dry goods or shoes. A newspaper is a business enterprise. Its columns are its stock in trade, and its advertisements should be paid for, no matter in what part of the paper they appear.

THE Verdict

It is the handsomest line of clothing ever found in Maysville. If this is not the exact truth, hundreds of customers who have looked through our stock and bought their spring outfits, deceive themselves for the reason that the verdict

Is the Voluntary Expression of Good Dressers

who have favored us with their patronage this spring. Our trade ever since the first of March has justified us in adding day to day the newest production in everything that pertains to our various departments. Look in our windows; they indicate the proper styles in

CLOTHING

SHOES AND FURNISHINGS.

From us you get the best the manufacturers produce, and our prices are most reasonable. You can buy a good All Wool Men's Suit for \$35; a good English Kid Worsted Suit for \$35; a splendid All Wool Cheviot Suit for \$35; a made-to-order imported Cheviot Suit for \$32. Our \$15 line of Tailor-made Suits in all the latest novelties in Cheviots, Serges, Tibets, Clays and Viennas are simply matchless. And \$18 or \$20 buy Suits of the kind that only the best of custom tailors—those that charge \$40 and \$50—can equal in material, trimmings and making. Our Smith & Stoughton and Bush & Packard

SHOES

see them in our show windows are THE shoes for people who fancy also, comfortable footwear. When the weather turns we will talk to you about our 1898 GRASS SUITS.

HECHINGER & CO

LEADERS IN FINE CLOTHING AND SHOES.

BEE HIVE

BEE HIVE

More than 100 Dozen Shirt Waists!

Have reached us in the past fortnight. Our buying in such large quantities is to your interest. Any manufacturer will "squeeze" the price when you take his goods in large lots. We can undersell the ordinary dealers because we underbuy them. The difference in cost is your profit. As to Shirt Waists, we have them in every quality of material, from the best to the cheapest. All made with bias and full fronts in sizes ranging from 32 to 44. At \$1.50, \$2.00 and \$2.50. Extra good to those you'll pay a third more for elsewhere. Observe our window display.

HOSE

Our interest in a large business will give us a rare opportunity in hose selling. "Knick" says: "We sell a full assortment of Black Hose at 50c, and a regular 50c quality in tan or black at 50c, or 3 pairs for \$1.50. A great line of Children's Socks and Boys' Hosiery at 50c and 50c. Extra special for the week in a popular 50c Ladies' Hose full assortment, all colors, made of best Wool yarn and put in 50c pairs in a box, at the ridiculous low price of 50c for the 3 pairs. Ask to see these.

CHILDREN'S HEADWEAR.

Our line of these cannot be equalled in this vicinity. Beginning with a pretty diamond Sunbonnet for 50c, our stock includes a great variety of Caps and Bonnets, some made of silk, with wide embroidery and straw braids, trimming, at prices ranging from 50c to \$1.75, and others made of silk, 50c and 50c. Extra good to those you'll pay a third more for elsewhere. Observe our window display.

LADIES' KID GLASSES.

Please remember that all of our \$1 and \$1.25 Ladies' Kid Glasses are guaranteed. Should they rip or tear while trying on another pair for the making. Our new stock includes all the latest and neatest shades, and a perfect fit assured.

The wreck of the Delta Island Dam will be in position within two or three days, providing the Ohio river continues to fall. Both ways at the dam have been raised, and the dam is in good condition, and it will only take a few hours to place it in position in case of necessity.

The water in the harbor at Pittsburgh is very low, poolboats being unable to bring loaded barges into the harbor on account of the prevailing conditions.

Major S. R. Crumbaugh, the new Supervising Inspector of Steam Vessels of this District, arrived in Cincinnati Tuesday and spent some time with Captain E. P. Chanceller, the present incumbent. Major Crumbaugh is not a steamboatman and was opposed by a number of steamboatmen on account of that fact. He is a man of great intelligence, however, having followed mechanical engineering for several years in a technical school. He has followed the profession of teaching various branches of study for many years, and no doubt exists in the minds of any of the local steamboatmen that he will fill the office of Supervising Inspector quite as acceptably. He took charge of the office yesterday morning. Captain Chanceller, who has filled the position for the last four years, left for his home at Parkersburg, W. Va., at noon yesterday. Captain Chanceller has made a personal friend of every steamboatman in the District. He goes out with the respect of every man with whom he ever had any business dealings.

"The best way to get rid of a bad law is to enforce it."—General Grant.

The Civil War is now over in real good fashion. Murphy Post No. 101, G. A. R., at Richmond, Ky., has just passed resolutions highly indorsing the course of the late Confederate General Fitzhugh Lee in Cuba, and holding him up to the world as a typical American. Amen!

The War correspondents of the Warlike newspapers are doing so much fighting just now with their pens that there will be little use for soldiers with guns. Spain has been already whipped a dozen times over, and she will be wiped off the map, as she should be, before the first real shot is fired.

Why have prices of all farm products advanced? It has been asserted that the increase in the price of breadstuffs is due to an unusual demand abroad, but this does not answer or explain the fact that everything else has advanced. The explanation is found in the fact that the factories and the railroads and the mines and all the industries which give employment to men are busy, and that men, therefore, have money to spend for food. Whatever gives constant employment to the population increases the ready market for the products of the farm, orchard and dairy.

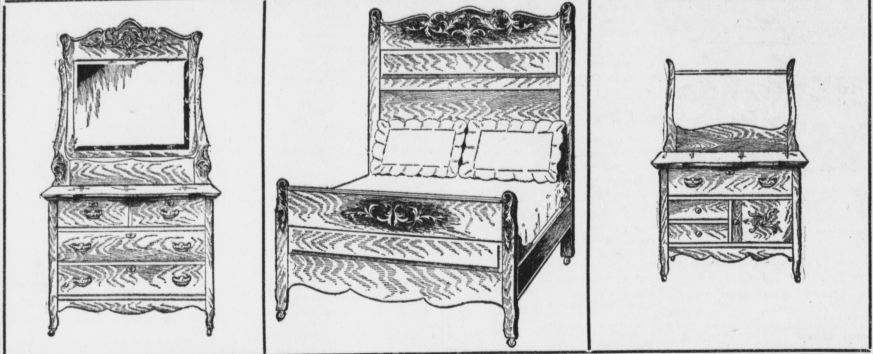

ONE of the most remarkable evidences of the business improvement is found in the announcement by The Railway Age that over twenty thousand miles of railways will probably be constructed in the United States in the year 1898. When it is considered that the construction since 1892 has averaged only a little over two thousand miles per annum, and for the three preceding years only about five thousand miles per annum, it will be seen that the activity in this line betokens a wonderful business improvement, especially in the South, where nearly one-half of this construction is promised.

FOREIGN demands for our leather and increased exportations of that article since the adoption of the Dingley Law add to the cumulative testimony against the claim that a Protective Tariff reduces our sales abroad. Consul SCHUMANN writes to the State Department from Germany that "American dressed leather is greatly preferred by the local boot and shoe manufacturers to the German articles, or in fact to that of any other country," and urges American manufacturers to send their goods to Germany. This foreign demand for our leather is evidently being felt in this country, as the January statement of the Bureau of Statistics shows that the exportation of leather in January, 1898, under the Dingley Law, was nearly double that of January, 1897, under the Wilson Law.

THE BUYERS' GUIDE.
A Hen is Said to Be Immortal, Because Her Son Never Sets!
WE ARE NO HEN, BUT
We Are Laying for Your Trade!

We want all your business—in fact, must have ALL your trade in order to succeed here on the 10 per cent. plan. There is something else that we resemble more than a hen. Can you guess? Our request for all your business may be just a little "hoggyish," but when you consider the fact that Furniture and Implements are now 50 per cent. cheaper than three months ago, (when The Price Fighter was not a citizen of Maysville) surely you will admit that we are entitled to your consideration.

HERE IS OUR EXCUSE:

WE OFFER YOU THIS SOLID OAK BEDROOM SUITE FOR \$15 98.
Notice the handsome hand-carving on Bed and Dresser. Note the French style Dresser. Serpentine tops on Dresser and Washstand. 24x30 Imported Bavel German Plate Mirror—truly a beautiful Bedroom Suite, and other people have the nerve to ask \$25 for it. We have the pleasure of saying to you that you can have one or a dozen of these Suites at \$15 98 each.

FARMERS!
Did you see all those Diseased Horses that your neighbors are buying and hauling out? They all come from The Price Fighter. We are surely the boys to save you \$7 on a Diseased Horse. We still have a few of those wonderful Bell's Center Cut Diseased Horses. They are cordially invited to call and examine this truly wonderful machine. Remember that we can save you \$7 on a Diseased Horse. How about Plows, Riding and Walking Cultivators, One and Two-Horse Corn Planters? We can save you a lot of \$8 on them. How about Farm Wagons? We are daily expecting our second carload in. We have saved all your neighbors \$10 on a wagon; let us save you \$10. Come to the Fountain Head!

JOHN I. WINTER, Maysville, Ky.,
The PRICE FIGHTER

It's a close race between the Spanish newspapers and the yellow journals of the United States as to which can invent the most unreliable statements.

SENATOR DIXON isn't exactly pleased with President McKINLEY'S Message,—thinks, perhaps, that he could have written a much better one—but Congressman PRON says it's all right.

The success of American manufacturers under the Protective system has been so great that Free-trade England is now calling upon us for steel in all shapes, the latest development being the reported sale of a quantity of American steel plate for the use of the Clyde ship builders. The Glasgow Herald, discussing England's iron and steel purchases from the United States, says: "However we may look at it, America is now permanently in the international market as a competitor for the supply of iron and steel."

Careful, conservative management and polite treatment to all. The People's gross earnings of the L. and N. for the first week in April were \$282,540, an increase of \$49,000 over 1897, of \$32,870 over 1896, of \$42,025 over 1895, of \$33,155 over 1894, but a decrease of \$15,375 from 1893.

"CAGE" MUSE.
The King of the Moonshiners Will Soon Be Free Again.

"Cage" Muse, the king of Kentucky moonshiners, will soon be free. His term of imprisonment in the Louisville Jail will expire this month. Muse admits that he has made during the past 31 years 15,000 gallons of whisky, upon which not a cent of taxes was paid to the Government. He says he has been arrested thirty-three times and has figured in twenty-two desperate battles with revenue officers. He estimates that he has earned \$30,000 from the making of whisky. He is a typical Kentucky moonshiner—tall, lank and ungainly. In manner he is mild and gentle, and no one would be apt to suspect that he has been hunted over seventeen states for violation of the revenue laws.

There is talk of reducing the pay of Lexington policemen and adding more men to the force.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case with myself or children.—W. A. INTERVENTION

House Passes Resolutions Authorizing the President to Use the Army and Naval Forces

FOR THE PURPOSE OF STOPPING WAR

On the Island of Cuba, and in Driving the Spaniards From Off of American Soil.

Similar Resolutions Introduced in the Senate—Will Likely Be Adopted Upon Thursday—Cabinet Resolutions Not Requested.

WASHINGTON, April 14.—The following is the majority resolutions reported to the senate by Senator Davis immediately upon the convening of the senate at noon Wednesday:

Whereas, The abhorrent conditions which have existed for more than three years in the island of Cuba, so near our own borders, have shocked the moral sense of the people of the United States, have been a disgrace to Christian civilization, culminating, as they have, in the destruction of the United States battleship, with 266 of its officers and crew, while on a friendly visit in the harbor of Havana, and can not longer be endured, as has been set forth by the president of the United States, in his message to congress of April 11, 1918, upon which the action of congress was invited; Therefore,

Resolved, First, That the people of the island of Cuba are of and of right ought to be, free and independent.

With animus by Spain so plainly apparent by her actions, can be plausibly deny its existence, but one reason for the conclusion of the investigating mind must be in considering the entire subject of the relations of the United States with that government. It is the opinion of your committee that the destruction of the Maine was compassed either by the official act of the Spanish authorities or was made possible by a negligence on their part so willing and gross as to be equivalent in culpability to positive criminal action.

"With property and life are destroyed by an act which the exercise of due diligence by the person whose duty it is to use it could have prevented the happening of such an event is sufficient proof that that negligence was not employed."

"The time of the explosions," says the report, "must have been calculated for the moment when the Maine should swing within the destructive radius of the mine."

Concluding this portion of its presentation the committee says: "The duplicity, perfidy and cruelty of the Spanish character, as they always have been demonstrated still to continue by their manifestations during the present war in Cuba. All these circumstances considered cumulatively, warrant the conclusion that the destruction of the Maine was compassed either by the official act of the Spanish authorities (and the ascertainment of the particular persons is not material) or by a state party who, in order to obtain the independence hereby recognized on their part so willing and gross as to be equivalent in culpability to positive criminal action."

The minority report presented the report of the minority of the committee as follows:

The undersigned members of the committee on foreign relations cordially concur in the report made upon the Cuban resolutions, but we favor the immediate recognition of the republic

Resolved, etc., That the president is hereby authorized and directed to intervene at once to stop the war in Cuba, to the end and with the purpose of securing permanent peace and order there, and establishing by free action of the people there of a stable and independent government of their own in the island of Cuba, and the president is hereby authorized and empowered to use the land and naval forces of the United States to execute the purpose of this resolution.

The members of the house foreign affairs committee in a report signed by five democrats and Mr. Newlands, silverite, have agreed to the following resolutions as a substitute for the majority report.

Resolved, That the United States government hereby recognizes the independence of the republic of Cuba.

Second, That, moved thereto by many considerations of humanity, of interest and of protection, among which are the delicate mooring of our battleship, the Maine, and a submarine mine and its destruction in the harbor of Havana, the president of the United States is hereby authorized and directed to extend immediate relief to the starving people of Cuba.

By a state party who, in order to obtain the independence hereby recognized on their part so willing and gross as to be equivalent in culpability to positive criminal action.

The minority report was rejected by a vote of 90 to 51 by the house. The substitute was defeated by a vote of 30 to 100. Thereafter moved to recommit with instructions to report back an amendment recognizing the independence of the Cuban republic. The resolution was rejected by a vote of 100 to 51.

THE SPANIARDS

Will Repel Every Attack, Direct or Indirect on the Sovereignty of Spain in Cuba.

LONDON, April 14.—The Madrid correspondent of the Daily Mail telegraphing at 5 o'clock Wednesday evening says:

"Lieut. Gen. Correa, minister of war and Count de Ximena, master of public works, both for me in a conversation Wednesday afternoon that the government was firmly resolved to repel every attack on the sovereignty of Spain in Cuba. They said also that they were sure that the independence of the part of Spain would certainly be supported by the European powers, more especially because the negotiations were based on an acknowledgment of Spanish sovereignty in Cuba."

"They told me that the conduct of Spain would be adjusted to that of the United States and that in face of the fact of the continuance of military and naval preparations in the United States, Spain was fully justified in carrying on her preparations. Finally the minister said to me:

"Our resolution at the cabinet meeting was taken unanimously and we will maintain it with all the necessary energy."

KEY WEST, FLA.

And Not Chickamauga, Will Be the Front of the American Invasion.

CHICAGO, April 13.—A special to the Tribune from Chattanooga, Tenn., says:

Key West, and not Chickamauga, is to be the front of the army. The change has been made in a twinkling. The two armies of the two divisions, which expected to encamp as a regiment at Chickamauga, have been suddenly ordered to proceed with all haste to Key West, Fla. An engine with steam up and cars waiting will stand on a siding near the depot Thursday when the regiment is expected to arrive.

Believe a Conflict is Inevitable.

Key West, Fla., April 14.—Key West is on the qui vive Wednesday and hungry for news of the next move on the international chess-board. Opinions vary as to the outcome, many holding the belief that following the decisive attitude of congress, Spain realizing she has no alternative but to yield, will surrender. Absolute silence prevailed as the resolutions were read.

The resolution is preceded by the following wherefore:

Whereas, the government of Spain for three years past has been warring on the lives of the Cuban people, and has refused to make any substantial progress and has conducted the warfare in a manner contrary to the laws of nations by methods inhuman and unchristian, causing the deaths and starvation of more than two hundred thousand innocent noncombatants, the lives of the Cuban people, children, inflicting intolerable injury to the commercial interests of the United States, involving the destruction of the lives and property of many of our citizens, entailing an expenditure of millions of money in patrolling our coasts and policing the high seas in order to maintain our neutrality and,

Whereas, this long series of losses, injuries and burdens for which Spain is responsible has culminated in the destruction of the United States battleship Maine in the harbor of Havana and in the death of 266 of our seamen.

Resolved, That the president is hereby authorized and directed to intervene at once to stop the war in Cuba, to the end and with the purpose of securing permanent peace and order there, and establishing by free action of the people there of a stable and independent government of their own in the island of Cuba, and the president is hereby authorized and empowered to use the land and naval forces of the United States to execute the purpose of this resolution.

Resolved, That the United States government hereby recognizes the independence of the republic of Cuba.

Second, That, moved thereto by many considerations of humanity, of interest and of protection, among which are the delicate mooring of our battleship, the Maine, and a submarine mine and its destruction in the harbor of Havana, the president of the United States is hereby authorized and directed to extend immediate relief to the starving people of Cuba.

By a state party who, in order to obtain the independence hereby recognized on their part so willing and gross as to be equivalent in culpability to positive criminal action.

The minority report presented the report of the minority of the committee as follows:

The Flying Squadron Left Old Point Comfort, Under Scaled Orders Wednesday.

PROCEEDS SLOWLY TOWARD THE CAPE

Probably Sent to Intercept Spanish Torpedo Boat Fleet Between Cape Verde and Porto Rico.

The Cruisers Vizeya and Oquendo Leave the Latter Place Bound for the Former Islands to Join the Torpedo Boat.

PORTSMOUTH, April 14.—The flying squadron received orders Wednesday morning to sail to the south Wednesday afternoon. The squadron was fired at 11 o'clock and the signal setting all hands on board. Commodore Schley left Old Point Comfort at 11 o'clock and was followed by his wife and daughter.

The flying squadron in command of Commodore Schley left Old Point at 11 o'clock Wednesday afternoon under scaled orders. The warships proceeded slowly towards the cape.

At New York, April 14.—A special to the Herald from Washington says: "Spain's two cruisers, the Vizeya and the Almirante Oquendo, which recently arrived at Porto Rico, have been ordered to sail again from Porto Rico. It is understood their destination is Cape Verde islands, in which they will intercept the Spanish torpedo boat fleet."

The British steamer Arcadia which arrived at New York from St. Juan and other ports in Porto Rico reports that there were five Spanish warships at anchor at St. Juan—the Vizeya, the Almirante Oquendo, two gunboats and one dispatch boat.
